

Health Care Data Quality Services

Solving Data Quality issues by delivering essential Processes, People and Tools

ProActive Datum is a provider of Data Quality Services that enables Health Care clients to optimize their enterprise data quality. It provides a proven approach that utilizes knowledgeable and experienced Data Quality Experts, Best-of-Breed Process Methodologies and applicable Tools to achieve quantifiable benefits in increased quality, lower costs and improved timeliness.

CURRENT STATE OF DATA QUALITY

*If a business cannot continuously measure and improve the quality of their data, they cannot manage it and are in a position of significant business risk! The business risk is only getting higher due to their increased use of data. In that regard, a 2017 Gartner study found organizations were **losing an average of \$15 million annually** as a result of poor data quality.*

DATA QUALITY SERVICES PROVIDED

- **Process Maturity Assessment**
- **Data Auditing**
- **Data Quality Operations**
- **Defect Identification & Correction Remediation**

QUANTIFIABLE CLIENT SUCCESSES ACHIEVED

- Increasing billable revenues
